## SIS-compliant M-Billing and more

Miscellaneous Billing can be troublesome and time-consuming. Even now that it has been standardized and made paperless thanks to IATA SIS, workflows are still all different – not only for airlines but for their service providers such as ground handlers or airports as well.

SKYfly M-Billing is designed for IATA SIS-compliant invoicing between such diverse business partners. Its full support for the IS-XML formats lets you deal with all Clearing House members using a paperless billing workflow – for an efficient billing management and a quick cash flow.

## Customer Voices

“KLM has been working with ISO’s application on the SIS-outgoing process for some time now. We built up a solid and professional working relation and have experienced the service and aftercare of ISO as being prompt and of a high level as well.”

**Michel van Rijn, Business Analyst, KLM  
Royal Dutch Airlines**

“SKYfly M-Billing by ISO Software Systeme lets us process our Miscellaneous Billing in accordance with the prevalent IATA SIS standards. We are therefore more timely, accurate and efficient in settling invoices with our business partners.”

**Paul Addis, Project Manager Alaska Airlines**

## Needs

To meet the challenges of modern airline processing and accounting, you need a solution that

- brings together processes that are so far unregulated
- supports the distributed and departmental requirements
- offers their specific accounting interfaces

## Solution

Why SKYfly M-Billing? By choosing our solution you can

- process IATA Miscellaneous Invoices in accordance with IATA SIS standards
- benefit from state-of-the-art technology plus scalability
- run software that adapts to your workflow – not vice versa

## Benefit

With SKYfly M-Billing, you can gain sustainable advantages beyond your basic needs. The software

- reflects the complexity of a user-group concept
- is highly adaptable yet requires no technical knowledge of SIS
- can conveniently be hosted by our sister company ISO Professional Services

## ISO Software Systeme

ISO Software Systeme has specialized in solutions specific for the aviation industry for more than 30 years. As a IATA Strategic Partner, ISO offers applications and services according to proven standards. Already more than 30 clients worldwide rely on quality software made in Germany.
